

WHY GIVE TO IESC?

IESC helps people improve their lives by catalyzing private sector growth and employment in economically developing countries. Through our work with entrepreneurs, jobseekers, businesses, cooperatives, and governments, we share proven business skills and experience and offer resources—human, technological, financial—that sustainably build capacity and help communities thrive.

Since 1964, we have supported people, businesses, and communities around the world and created over 1.5 million jobs in 137 countries. Our greatest honor is seeing people succeed because of access to the knowledge and resources they need to thrive.

While tremendous strides have been made over the last six decades toward economic opportunity for all, there is still hard, important work to do. We are not done.

A gift to IESC expands upon our legacy of strengthening developing economies to improve lives, strengthen communities, and reduce global poverty. Your donation will help us fulfill our vision for the next generation by:

- Supporting micro, small, and medium businesses hurt by the COVID-19 pandemic to survive through the pandemic and thrive post-pandemic
- Helping women-owned businesses receive the support they need to expand their businesses and increase their incomes
- Helping farmers increase production, boost incomes, and adapt to and mitigate the impacts of climate change while improving food security
- Helping micro, small, and medium businesses access the finance necessary to expand and create jobs
- Supporting youth and the underemployed to obtain the skills they need to secure gainful employment and obtain better jobs
- Improving business conditions that will foster economic growth to create jobs and increase incomes
- Helping micro, small, and medium businesses identify and secure the appropriate equipment, technology, training, and tools to expand their businesses and create sustainable jobs
- Helping us field highly qualified international volunteer experts to work hand-in-hand with businesses and help us fulfill our mission
