2. Background

IESC is a U.S.-based nonprofit organization operating in Vietnam pursuant to an operating license issued by the People's Aid Coordinating Committee. It implements the USAID Linkages for Small and Medium Enterprises (USAID LinkSME) project under a contract with USAID. Click [here](#) for more information.

The USAID LinkSME project supports the Government of Vietnam (GVN) in its efforts to develop, adopt, and implement policy and regulatory reforms to provide a more favorable environment for small and medium enterprises (SMEs). It also works with business support organizations (BSOs) and the GVN to improve the performance of SMEs and integrate them into lead firm supply chains. The lead agency for the project's work with BSOs and SMEs is the Agency for Enterprise Development (AED) under the Ministry of Planning and Investment (MPI).

On August 26, 2021, the GVN promulgated Decree 80/2021/ND-CP (Decree 80), which elaborates some articles of the law on the provision of assistance for SMEs. SME that grew from business households, are creative startups, and those participating in industry clusters and value chains are entitled to this support.

Women-owned SMEs or SMEs with a high percentage of female employees¹ are prioritized to receive the support, including:

- Technology, which includes digital transformation, intellectual property, and technology transfer. Financial support can be up to 50% of the value of investment.
- Information accessed via portals governed by the MPI at no cost.
- Consulting services through the newly established network of consultants, which offers support in human resources, finance, production, sales, marketing, internal management, and other related areas. This includes 30% to 100% support of consultancy contract costs, with supporting ranging between 70 and 200 million VND maximum per year depending on the size of the enterprise.
- Human resource development and training, including innovative startup and corporate governance, production and processing, and vocational skills at the primary level or up to 3 months of short-term in-house training. Financial support is between 70% and 100% of the total cost of a training course, of which 100% is covered for one course per year.
- Pre-evaluation, audit, promotion, business matching, e-commerce etc. services for SMEs who are joining the value chain.

GVN-supported schemes as mentioned above, however, are still in the early stages of development. They are not expected to come into full operation before the end of 2022. As such, the USAID LinkSME project will provide support in advance to train BSOs to have the capacity to select and propose qualified SMEs, especially women-owned SMEs or SMEs with a high percentage of female employees, to receive assistance under Decree 80. GVN-organized BSOs will be the chief collaborators in this capacity building activity.

3. Scope Statement

¹ An enterprise with female employees accounting for 50% or more of the total number of employees in case the enterprise employs less than 100 employees; accounting for 30% or more of the total number of employees in case the enterprise employs 100 or more employees.

IESC is seeking a qualified and legally registered Vietnamese company or organization to support AED in its preparation for pilot implementation of policies supporting women-owned SMEs under Decree 80.

All proposals must be valid for one hundred and twenty (120) days from the date of submission.

Attachment A

Disclosure Form

No application to serve as a subcontractor to IESC under this RFP will be considered unless the Offeror makes the disclosures below.

Why are these disclosures necessary?

Pursuant to the Project Implementation Manual for the USAID LinkSME Project, IESC must encourage a “competitive method of the subcontractor selection process.” During the implementation of the subcontract, IESC needs to ensure that the engaged subcontractor: (i) has been appointed in a fair, transparent and competitive manner; (ii) is not subject to any improper influence that may compromise its ability to produce work in good faith, to exercise independent judgment, or that calls into question the legitimacy and credibility of its work product; and (iii) produces deliverables that can be fairly and professionally evaluated free of any suggestion that the evaluation is subject to improper influence.

What disclosures must be made?

Offerors must disclose any relationship that:

- Indicates or suggests that the Offeror may have influence over employees of USAID LinkSME or its implementing partner so that its selection as a subcontractor is not and is not seen to be unfair or improper in any way.
- Indicates or suggests that the Offeror may be influenced by employees of USAID LinkSME, or its implementing partners so that its independent judgment or the credibility of its deliverables is or could be undermined or compromised in any way; and
- Indicates or suggests that the Offeror may have influence over employees of USAID LinkSME or its implementing partners so that the review of its performance or the acceptance of its deliverables is, or is seen to be, unfair or improper in any way.

What happens if a disclosure is made?

Not all disclosures will result in disqualification. IESC will consider each disclosure to determine the nature of the relationship disclosed, the extent to which it may influence a person, and the nature of the influence itself. In doing so the IESC may consider among other things, the duration of the relationship, whether it has a personal or financial element to it, and whether any mitigation measures might be put in place to limit the harm or potential harm that may arise in light of the disclosure.

What happens if a necessary disclosure is not made?

If IESC becomes aware of a relationship between the Offeror or any of its officers or employees that ought to have been disclosed by an Offeror and the Offeror has failed to do so, the IESC may:

- Disqualify the Offeror from the selection process no matter if the conflict was capable of mitigation or not; or
- Terminate any related subcontract and withhold any outstanding payments.

In such cases, the disqualification of an Offeror or the early termination of a subcontract, may be publicly disseminated which may have a negative impact on the Offeror's reputation. It is therefore in the best interests of each Offeror to make a full and comprehensive disclosure so that any questions regarding the validity of the Offeror's selection or the credibility of any subcontractor's work product are dealt with upfront, in a transparent, fair and amicable manner.

FAR 52.204-1 APPROVAL OF CONTRACT (DEC 1989)

This subcontract may be subject to the written approval of the Contracting Officer.
(End of clause)

**AIDAR 752.209-71 ORGANIZATIONAL CONFLICTS OF INTEREST
DISCOVERED AFTER AWARD (JUN 1993)**

1. The Contractor agrees that, if after award it discovers either an actual or potential organizational conflict of interest with respect to this contract, it shall, subject to any confidentiality obligation owed to other parties, make an immediate and full disclosure in writing to the Contracting Officer which shall include a description of the action(s) which the Contractor has taken or proposes to take to avoid, eliminate or neutralize the conflict.

2. The Contracting Officer shall provide the contractor with written instructions concerning the conflict. USAID reserves the right to terminate the contract if such action is determined to be in the best interests of the Government.

(End of clause)

AIDAR 752.242-70 PERIODIC PROGRESS REPORTS (OCT 2007)

1. The Contractor shall prepare and submit progress reports as specified in the contract schedule. These reports are separate from the interim and final performance evaluation reports prepared by USAID in

accordance with (48 CFR) FAR 42.15 and internal Agency procedures, but they may be used by USAID personnel or their authorized representatives when evaluating the contractor's performance.

2. During any delay in furnishing a progress report required under this contract, the contracting officer may withhold from payment an amount not to exceed US\$25,000 (or local currency equivalent) or 5 percent of the amount of this contract, whichever is less, until such time as the contractor submits the report or the contracting officer determines that the delay no longer has a detrimental effect on the Government's ability to monitor the contractor's progress.

(End of clause)

**AIDAR 752.7013 CONTRACTOR-MISSION RELATIONSHIPS (JUNE 2018)
(M/OAA-DEV-AIDAR-18-04c)**

1. The Contractor acknowledges that this contract is an important part of the United States Foreign Assistance Program and agrees that its operations and those of its employees in the Cooperating Country will be carried out in such a manner as to be fully commensurate with the responsibility, which this entails. This responsibility includes the Contractor ensuring that employees act in a manner consistent with the standards for United Nations (UN) employees in Section 3 of the UN Secretary General's Bulletin - Special Measures for Protection from Sexual Exploitation and Sexual Abuse (ST/SGB/2003/13).

2. The Mission Director is the chief representative of USAID in the Cooperating Country. In this capacity, the Mission Director is responsible for both the total USAID program in the cooperating country including certain administrative responsibilities set forth in this contract, and for advising USAID regarding the performance of the work under the contract and its effect on the United States Foreign Assistance Program. Although the Contractor will be responsible for all professional, technical, and administrative details of the work called for by the contract, it must be under the guidance of the Mission Director in matters relating to foreign policy. The Chief of Party must keep the Mission Director currently informed of the progress of the work under the contract.

3. If the Contractor determines that the conduct of any employee is not in accordance with the preceding paragraphs, the Contractor's Chief of Party must consult with the USAID contracting officer and the Mission

Director and the employee involved and must recommend to the Contractor a course of action with regard to such employee.

4. The parties recognize the rights of the U.S. Ambassador to direct the removal from a country of any U.S. citizen or the discharge from this contract of any individual (U.S., third-country, or cooperating-country national) when, at the discretion of the Ambassador, the interests of the United States so require. Under these circumstances termination of an employee and replacement by an acceptable substitute must be at no cost to USAID.

5. If it is determined, under paragraphs (c) and (d) above, that the services of such employee must be terminated, the Contractor must use its best efforts to cause the return of such employee to the United States or third country point of origin as appropriate.

(End of clause)

AIDAR 752.7025 APPROVALS (APR 1984)

All approvals required to be given under the contract by the Contracting Officer or the Mission Director shall be in writing and, except when extraordinary circumstances make it impracticable, shall be requested by the Contractor sufficiently in advance of the contemplated action to permit approval, disapproval or other disposition prior to that action. If, because of existing conditions, it is impossible to obtain prior written approval, the approving official may, at his discretion, ratify the action after the fact.

(End of clause)

2. Prohibition on Abortion-Related Activities.

1. No funds made available under this Contract will be used to finance, support, or be attributed to the following activities: (i) procurement or distribution of equipment intended to be used for the purpose of inducing abortions as a method of family planning; (ii) special fees or incentives to any person to coerce or motivate them to have abortions; (iii) payments to persons to perform abortions or to solicit persons to undergo abortions; (iv) information, education, training, or communication programs that seek to promote abortion as a method of family Planning ; and (v) lobbying for or against abortion. No funds made available under this Contract will be used to pay for any biomedical research which relates, in whole or in part, to methods of, or the performance of, abortions or involuntary sterilizations as a means of family planning. (End of clause)

AIDAR 752.222-71 NONDISCRIMINATION (JUNE 2012)

FAR part 22 and the clauses prescribed in that part prohibit contractors performing in or recruiting from the U.S. from engaging in certain discriminatory practices.

USAID is committed to achieving and maintaining a diverse and representative workforce and a workplace free of discrimination. Based on law, Executive Order, and Agency policy, USAID prohibits discrimination in its own workplace on the basis of race, color, religion, sex (including pregnancy and gender identity), national origin, disability, age, veteran's status, sexual orientation, genetic information, marital status, parental status, political affiliation, and any other conduct that does not adversely affect the performance of the employee. USAID does not tolerate any type of discrimination (in any form, including harassment) of any employee or applicant for employment on any of the above-described bases.

Contractors are required to comply with the nondiscrimination requirements of the FAR. In addition, the Agency strongly encourages all its contractors (at all tiers) to develop and enforce nondiscrimination policies consistent with USAID's approach to workplace nondiscrimination as described in this clause, subject to applicable law.
