### **Desired Background of Candidates: Agribusiness**

**About IESC:** Improving Economies for Stronger Communities (IESC) is a leading U.S. nonprofit organization that catalyzes private sector growth and creates economic opportunity for people and communities across the economically developing world. Since our founding in 1964—by David Rockefeller, Sol Linowitz, and Frank Pace, with US President Lyndon Johnson announcing IESC’s founding in the White House Rose Garden—we have delivered lasting solutions across 139 countries.

Since our founding, IESC has been a valued partner to people and communities throughout the economically developing world. We share proven business skills and experience with entrepreneurs, jobseekers, businesses, farmers, cooperatives, and governments. We also offer resources—human, technological, financial—that sustainably build capacity and empower communities. Our long legacy of strengthening developing economies is matched by our vision for the next generation: a world with economic opportunity for all, where people and communities thrive.

We achieve our mission primarily through the efforts of long-term staff, who are principally from the countries where we work. We also partner with local organizations to ensure our impact will endure. These efforts are supported by our home office staff in Washington, DC, our dedicated volunteer experts and consultants, as well as select international partners.

Our major funders today are the U.S. Agency for International Development (USAID) and the U.S. Department of Agriculture (USDA), among others, including charitable contributions. A key area of focus for IESC today is [\*\*agriculture-led growth\*\*](#).
