

YOUTH ACTIVELY CREATE OPPORTUNITIES

Supporting youth in getting an active role in the society, so that they can contribute to their communities and a more prosperous North Macedonia.

WITH YOUTH, FOR YOUTH!

PARTNERSHIPS CREATED TO SUPPORT ECONOMIC OPPORTUNITIES

Many young people are unable to find jobs that meet their expectations, while businesses face challenges in attracting qualified youth.

To bridge this gap, the Activity will collaborate with youth, companies, and institutions such as the Ministry of Labor and Social Policy and the Employment Service Agency to establish partnerships that can help young people find appealing employment opportunities in growing industries, and support businesses in accessing a pool of skilled youth to remain competitive and grow.

YOUTH'S COMPETENCIES FOR JOBS, PROGRESSIVE CAREERS, AND CIVIC LIFE STRENGTHENED

The Activity will provide young people with access to innovative training programs, internships, and comprehensive career guidance services.

By equipping them with in-demand skills, it aims to facilitate their job search and career advancement, helping them realize their full potential both economically and civically.

VALUES AND EXPERIENCE THAT UNDERPIN SELF-RELIANCE PROMOTED

To support and empower youth groups, the Activity will organize trainings, provide rapid response grants, promote research and advocacy, and support youth-led events and community service.

The Activity will equip young people with the necessary skills and resources to become successful leaders, foster a culture of integrity, and make positive changes in their communities and beyond.

Duration

February 2023 – January 2028

Prime implementer

Improving Economies for Stronger Communities (IESC)

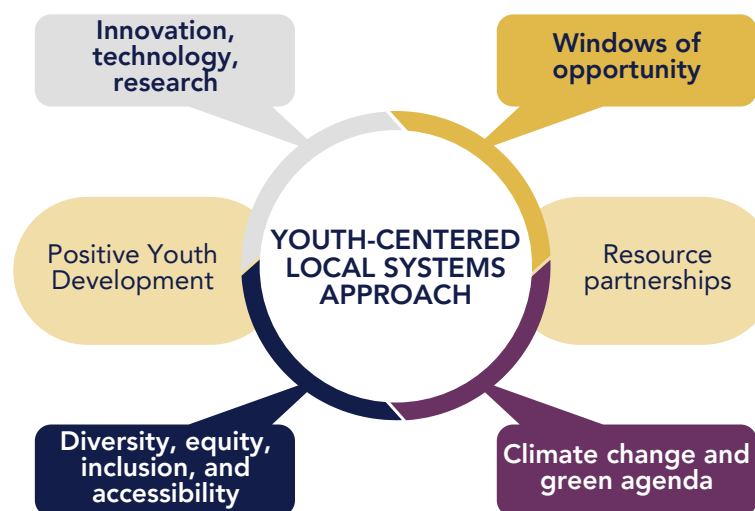

Implementing partners

- Center for Entrepreneurship and Executive Development (CEED) Hub Skopje
- Youth Educational Forum (YEF)

Partnerships

Youth and youth organizations, private sector, civil society, and governmental institutions

Impact

- More young people will be able to get good internships, jobs, or start their own businesses.
- Companies will be more interested in supporting young people's innovative ideas.
- Young people will have opportunities to learn new skills that will help them in their careers.
- Young people will be more active in anti-corruption, environmental protection, and promoting inclusion for marginalized groups.
